Reflective arrow on both tyre sidewalls.

A unique solution for the safety of riders in the motorcycle tyre segment.

- For all enduro motorcycles of lower and medium motor capacity;
- Optimal for the on-road use, as well as occasional rides on gravel roads or less robust unpaved surfaces;
- Ideal for dynamic, rapid and above all, a safe and reliable ride;
- Superb grip in all circumstances;
- Handling and stable behaviour;
- Low rolling resistance and noise level;
- Optimised tyres wear despite a relatively soft tyre tread compound.
